FIELD TRIP AUTHORIZATION

Dear Parents,

Under the provisions of the California State School Law, teachers may take pupils on field trips in order to enrich their educational experiences. Such trips are taken only under direct supervision of a teacher and, of course, all precautions are taken to insure that your child will be just as safe on such a trip as he/she is in school or on the playground. We do desire to obtain the authorization of the parents, however, before taking pupils on field trips where transportation is used.

We will notify you concerning the specific details of each trip whether transportation is used or not. This form is to avoid the necessity of signing a slip for each trip taken within Sierra Expeditionary Learning School. You will, however, be asked permission in the event a field trip extends beyond the Tahoe Truckee Unified School District boundaries.

Sincerely,

David Manahan
Director

I hereby request that my child be allowed to participate on any school-sponsored field trip held during the regular school day and under the direct supervision of a teacher.
